

**JACKI MALLICK**  
**JACKI MALLICK DESIGNS LLC.**

**Q: WHAT IS YOUR DESIGN INSPIRATION?**

A: My inspiration comes from my travels, anywhere and everywhere, from indigenous topography and hotels to local architecture. I could be inspired by an overnight stay in Miami to the famous Paris flea market for business or pleasure. I especially admire Dubai and its magnificent hotel lobbies as well as Barcelona and its whimsical Gaudi architecture.

**Q: WHAT ARE THE LATEST TRENDS IN YOUR INDUSTRY?**

A: Major trends include a pop of color against a neutral background, digital photography transferred onto fabric and wall coverings, and Lucite, clear and colored "invisible furniture." Lucite objects used in South Florida have

a very special function, as they allow an unobstructed view of an ocean or cityscape. I love Alexandra Von Furstenberg's Lucite collection of furniture and accessories, which is available exclusively in West Palm Beach in our boutique on Antique Row.

**Q: WHAT IS YOUR AREA OF SPECIALIZATION?**

A: I specialize in residential interiors and exterior spaces, capturing Hollywood regency with a touch of French, beach chic, Mediterranean or authentic mid-century modern. We specialize in refurbishing and recreating coveted vintage furniture to each client's desires or resell specifications.
